

Amendments to Drawings

The attached sheet of drawings includes changes to Figure 1. The sheet properly incorporates the handwritten notations on Figure 1 as filed, as suggested in the Office Action, page 2, paragraph no. 2. The Figure is also amended to correct clerical errors. Specifically, in SEQ ID NO:21, the "1" at position 32 is replaced with a V (Val), a G (Gly) is added at position 61, and a K (Lys) is added at position 62. SEQ ID NO:2 has amended to add K (Lys) at the end. Support for these amino acid amendments is found in the Sequence Listing as filed.
